InnovoCommerce LLC to present to ExpertBriefings.com on May 5, 2009: A risk-based enterprise SharePoint deployment validation service for life science organizations

IRVINE, CA – Monday March 30, 2009 – InnovoCommerce, will present GAMP 5-based risk-based approaches to validating enterprise Microsoft SharePoint deployments.

During the one hour seminar InnovoCommerce will help attendees understand how to rapidly develop enterprise SharePoint deployment strategies when considering that the platform will include controlled applications. The presenters will educate the attendees about how to develop a comprehensive yet flexible risk based matrix for enterprise SharePoint deployments including the underlying Microsoft infrastructure components. Finally the presenters will help attendees to understand how the risk matrix helps guide the development of the master validation plan, change control process guide and governance plan.

About InnovoCommerce LLC.

Founded in 2008, InnovoCommerce is a privately held company offering Microsoft SharePoint-based enterprise content management, business process management and system integration services. The company brings a unique set of combined expertise focusing on the Microsoft platform, systems integration and life science markets.
